**What information do we collect?**
All usage of the Scoreboard application is done so anonymously and we do not store any personal information.
When using the Scoreboard application, analytical data will be sent to servers using the google analytics service. Information about this service and the privacy can be found at https://support.google.com/analytics
When a user chooses to share a game online the game's current information is stored on our servers. We will also automatically collect and store information regarding usage patterns in server logs. This information will also be collected and stored anonymously.

**How do we use the information we collect?**
Any of the information that we use may be used to provide the core service of the application, and will serve to ensure quality of service only. This includes adding/ improving features, identify and fixing bugs etc.

**Social Networks**
Scoreboard will not post to any social networks without the users explicit permission and request. Once a user has requested a post to a social network. Sport Hub that information is not longer

**Who can access the data?**
Once a game link has been generated it becomes live automatically. This page does not require any authentication to view and will be viewable to all for as long as the data is held on the Sport hub servers.

**How long is data stored?**
Game data is stored on our servers indefinitely. All game data will be cleared when necessary to make room for future games.

**Consent**
By using the application you consent to our privacy policy.

**Changes to our privacy policy**
If we decide to change our privacy policy we will post the changes on this page.

This page was last modified on 19/10/2014
